

# Sutan Gading Fadhillah Nasution

SOFTWARE ENGINEER, FRONTEND

## ABOUT

I'm **Software Engineer** who specialized in **frontend** side, but also have an ability to code in **backend** side. Very passionate about modern web and mobile technology using **JavaScript/TypeScript** while taking into consideration the latest trends and techniques. I wrote the code structure cleanly and optimally. And I would be a fast learner to doing a new things and build a good teamwork either.

I've also made several side and open-source project on **GitHub** for fun, and maybe be useful for people who have used it.
