- Team Work
- Patient

Technical Skills
- GIT
- Javascript/Typescript
- React Web/Native
- Next
- Node
- Express

ABOUT

I'm **Software Engineer** who specialized in **frontend** side, but also have an ability to code in **backend** side. Very passionate about modern web and mobile technology using **JavaScript/TypeScript** while taking into consideration the latest trends and techniques. I wrote the code structure cleanly and optimally. And I would be a fast learner to doing a new things and build a good teamwork either.

I've also made several side and open-source project on **GitHub** for fun, and maybe be useful for people who have used it.

WORK EXPERIENCE

SIRCLO
2021 - Present

Software Engineer, ORAMI Core
- Became part of the SIRCLO group when Orami was acquired by SIRCLO
- Joined Core Team as a Core Frontend Developer on Orami
- Doing R&D about improving web performance and code scalability
- Doing R&D design guidelines with UI/UX Team.
- Creating some utilities for supporting another Squad to develop app services

ORAMI
2019 - 2021

Frontend Developer
Helping Orami to develop application services for simplifying parenting with technology throughout Southeast Asia.
